Judicial Self-Governance in the New Millennium Tim Bunjevac 2021-01-29 This book is a comparative study of judge-managed court systems across Australia, Europe and North America. This book makes an original contribution to the literature of court administration by providing a framework for examining court-service models of judicial councils, the policymaking bodies of courts and tribunals. This book promises to assist court administration scholars, judicial leaders, and policymakers in devising more effective organizational solutions to the contemporary challenges of judicial self-governance. The author Dr. Tim Bunjevac offers a nuanced elaboration of judicial accountability in court administration and a model institutional framework of court governance, comparing key Australian and international models of court administration, including the Australian Federal and two state court systems, Irish, English, Canadian and Dutch models. With a close case study, the author puts his sharpest focus on the Victoria, Australia, which introduced a judicial council in 2014. This book does an innovative job of proposing a new elaboration of judicial accountability in court administration. This book proposes that the likely success of any court system reform ultimately depends on the quality of the interaction between the courts, government, and other justice system stakeholders, which must be rooted in the concepts of organizational transparency and administrative accountability.

Her Honor LaDoris Hazzard Cordell 2021-10-26 In *Her Honor*, Judge LaDoris Hazzard Cordell provides a rare and thought-provoking insider account of our legal system, sharing vivid stories of the cases that came through her courtroom and revealing the strengths, flaws, and much-needed changes within our courts. Judge Cordell, the first African American woman to sit on the Superior Court of Northern California, knows firsthand how prejudice has permeated our legal system. And yet, she believes in the system. From ending school segregation to legalizing same-sex marriage, its progress relies on legal professionals and jurors who strive to make the imperfect system as fair as possible. *Her Honor* is an entertaining and provocative look into the hearts and minds of judges. Cordell takes you into her chambers where she haggles with prosecutors and defense attorneys and into the courtroom during jury selection and sentencing hearings. She uses real cases to highlight how judges make difficult decisions, all the while facing outside pressures from the media, law enforcement, lobbyists, and the friends and families of the people involved. Cordell's candid account of her years on the bench shines light on all areas of the legal system, from juvenile delinquency and the shift from rehabilitation to punishment, along with the racial biases therein, to the thousands of plea bargains that allow our overburdened courts to stay afloat—as long as innocent people are willing to plead guilty. There are tales of marriages and divorces, adoptions, and contested wills—some humorous, others heartwarming, still others deeply troubling. *Her Honor* is for anyone who's had the good or bad fortune to stand before a judge or sit on a jury. It is for true-crime junkies and people who vote in judicial elections. Most importantly, this is a book for anyone who wants to know what our legal system, for better or worse, means to the everyday lives of all Americans.

Mediation Klaus J. Hopt 2018-12-13 Mediation provides an attractive alternative to resolving disputes through court proceedings. Mediation promises just results in the interest of all parties concerned, a reduction of the court caseload, and cost savings for the parties involved as well as for the treasury. The European Directive on Mediation has given mediation in Europe new momentum by establishing a common framework for cross-border mediation. Beyond Europe, many states have tried in recent years to answer the question whether, and if so, how mediation should be regulated at a national and international level. The aim of this book is to promote the understanding and discussion of regulatory issues by presenting comparative research on mediation. It describes and analyses the law and practice of mediation in twenty-two countries. Europe is represented by chapters on mediation in Austria, Bulgaria, England, France, Germany, Greece, Hungary, Ireland, Italy, the Netherlands, Norway, Poland, Portugal and Spain. The world beyond Europe is analysed in chapters on mediation in Australia, Canada, China, Japan, New Zealand, Russia, Switzerland and the USA. Against this background, further chapters on fundamental issues identify possible regulatory models and discuss central principles of mediation law and practice. In particular, the work considers harmonisation and diversity in the law of mediation as well as the economic and constitutional problems associated with privatising civil justice. To the extent available, empirical research is used as a point of reference in the critical analysis.

Justice, Conflict and Wellbeing Brian H. Bornstein 2014-08-12 Justice, conflict and wellbeing are large topics that occupy researchers from a variety of disciplines, as well as laypeople and policy makers. The three concepts are closely connected: conflict often (though not always) impairs wellbeing, whereas justice often (though not always) enhances it; perceived injustice is a common source of conflict, at multiple levels and calls for justice are a common response to conflict. In addition, each construct has subtypes, such as distributive and procedural justice, individual and group conflict and physical and psychological wellbeing. Although there are established traditions of research on the topics in multiple disciplines, there is little cross-fertilization across disciplines. This volume brings together researchers from social, clinical and educational psychology; law and political science. The unifying theme is how injustice and conflict pose threats to wellbeing, at the micro (individual) and macro (groups and societies) levels. Multi- and interdisciplinary research are at the vanguard of science in the twenty-first century and the present work applies multi and interdisciplinary perspectives to the important real-world topics of justice, conflict and wellbeing.

The final part, complex issues, draws from the 1999 book, and covers

International and Comparative Mediation Nadja Marie Alexander 2009-01-01 "In a world where the borders of the global community are fluid, and where disputants manifest increasingly diverse attributes and needs, mediation ? for decades hovering at the edge of dispute resolution practice ? is now emerging as the preferred approach, both in its own right and as an adjunct to arbitration. Mediation processes are sufficiently flexible to accommodate a range of stakeholders (not all of whom might have legal standing) in ways the formality of arbitration and litigation would not normally allow. Among mediation?s many advantages are time and cost efficiencies, sensitivity to cultural differences, and assured privacy and confidentiality. This book meets the practice needs of lawyers confronted with cross-border disputes now arising far beyond the traditional areas of international commerce, such as consumer disputes, inter-family conflicts, and disagreements over Internet-based transactions. The author takes full account of mediation?s risks and limitations, primarily its lack of finality and uncertainty in relation to enforceability issues which will persist until the advent of appropriate international regulation." --Publisher's website.

It Is Not About Guilt! Robert L. Mason 2008-11-01 The book is a chronology of encounters, documents and letters, each with impacting commentary. It began with a flawed traffic ticket in court and continued from there over 33 months. I did not hire an expensive lawyer for what began as a minor matter. The judge made several judicial process errors. I have documented 4 court appearances, 3 separate filed appeals, one writ of mandate petition with legal exculpatory evidences and each with merit. I submitted documentation of eighteen judicial rule of law misconduct complaints to the oversight Commission on Judicial Performance. It is unbelievable that they declined to take judicial disciplinary action. Their refusal action actually has condoned proven misconduct, thus giving an anarchy impunity precedent to the full Judicial System! All of this is documented and factual proof in the book.

A Senior Citizen Tells a True Story Robert L. Mason 2009-10-01 This is a non-fiction true story that I tell about some good and some bad parts of my lifetime experiences. You should find the good things to be enjoyable reading, and become intrigued by the documented lengthy bad encounter with the court system after I retired. What was happening was unbelievable. It's about my four year encounter with the California Judicial System over a minor traffic infraction, without a lawyer. You should be shocked to learn what can and does happen in court. The courts applied a double standard that negated the rule of law for equal rights. I spent hundreds of dollars fighting for equal justice and the price of the book is well worth it. Now, the same can happened to anyone at any time, thus you can be on the alert by my true story encounters.
