Inventing Masks
Z. S. Strother 1998-03-28 Who invents masks, and why? Such questions have rarely been asked, due to stereotypes of anonymous African artists locked into the reproduction of "traditional" models of representation. Rather than accept this view of African art as timeless and unchanging, Z. S. Strother spent nearly three years in Zaire studying Pende sculpture. Her research reveals the rich history and lively contemporary practice of Central Pende masquerade. She describes the intensive collaboration among sculptors and dancers that is crucial to inventing masks. Sculptors revealed that a central theme in their work is the representation of perceived differences between men and women. Far from being unchanging, Pende masquerades promote unceasing innovation within genres and invention of new genres. Inventing Masks demonstrates, through first hand accounts and lavish illustrations, how Central Pende masquerading is a contemporary art form fully responsive to twentieth-century experience. "Its presentation, its exceptionally lively style, the perfection of its illustrations make this a stunning book, perfectly fitting for the study of a performing art and its content is indeed seminal. . . . A breakthrough."–Jan Vansina, *African Studies Review*

Joanna Wylde 2014-09-12 Das Letzte, was Marie zurzeit braucht, ist ein Mann in ihrem Leben. Der riesige, tätowierte und knallharte Biker, der eines Nachmittags bei ihrem Bruder aufkreuzt, ist da anderer Meinung. Er möchte Marie auf seinem Motorrad und in seinem Bett. Jetzt sofort. Aber Marie hat gerade ihren gewalttätigen Exmann verlassen und sucht bestimmt nicht nach einem neuen Typen. Besonders nicht nach einem wie Horse – sie kennt weder seinen richtigen Namen, noch weiß sie, wo er wohnt. Außerdem ist sie sich ziemlich sicher, dass er ein Krimineller ist und dass es sich bei dem "Geschäft", das er immer mit ihrem Bruder bespricht, nicht um Webdesign handelt. Sie will, dass er aus ihrem Leben verschwindet, was viel einfacher wäre, wenn er nicht so gut darin wäre, ihr die besten Orgasmen ihres Lebens zu bescheren.

Wild Experiment
Donovan O. Schaefer 2022-04-04 In Wild Experiment, Donovan O. Schaefer challenges the conventional wisdom that feeling and thinking are separate. Drawing on science studies, philosophy, affect theory, secularism studies, psychology, and contemporary literary criticism, Schaefer reconceptualizes rationality as defined by affective processes at every level. He introduces the model of “cogency theory” to reconsider the relationship between evolutionary biology and secularism, examining mid-nineteenth-century Darwinian controversies, the 1925 Scopes Trial, and the New Atheist movement of the 2000s. Along the way, Schaefer reappraises a range of related issues, from secular architecture at Oxford to American eugenics to contemporary climate denialism. These case studies locate the intersection of thinking and feeling in the way scientific rationality balances excited discovery with anxious scrutiny, in the fascination of conspiracy theories, and in how racist feelings assume the mantle of rational objectivity. The fact that cognition is felt, Schaefer demonstrates, is both why science succeeds and why it fails. He concludes that science, secularism, atheism, and reason itself are not separate from feeling but comprehensively defined by it.

Mona
Horatio Parker 2018-02-02 Excerpt from Mona: An Opera in Three Acts A month later. Evening. The Cromlech in the forest: A huge oak tree in the centre; at its foot an altar graven with the Sign of the Name; behind that, a crumbling stone wall in the form of a semicircle; and behind this, deep forest, through which appear the great standing stones of the outer circle. Nial alone, dancing with his shadow. In monologue he declares himself happier, being a Changeling with no soul, brother to all the wild things of the earth, than his wise friends whose souls torment them. The Governor, entering at the head of a scouting party, captures him and questions him as to the evident signs of a recent gathering there; but Nial, fearless through sheer ignorance of harm, refuses to answer. As he is about to be tortured, Gwynn suddenly appears and interposes. The Governor questions him about the reported rebellion, adding that Gwynn is freely accused of treason in siding with the Britons. Gwynn, refusing to break his oath by revealing their plans, yet claims as his own work the peace of the past years, and promises that through Mona and his own influ ence as a Bard the threatened uprising shall be averted. The Governor is for crushing the conspiracy by immediate force, but is at length brought to refrain on condition that Gwynn shall hold the tribes from any overt act of war. On this Gwynn stakes everything and sets out to guide his father back to the Roman town. After a momentary soliloquy by Nial in' the gathering darkness, Mona and Gloom enter together. They have been going about the country preparing universal rebellion; and on that night they themselves are to lead the attack upon the Roman town', whose flames will be the signal for a general uprising. Mona, inspired with the ecstasy of her mission, yet dreads their own opening battle, upon which all depends. In the enthusiasm of his reass'lrance, Gloom tlnows off the mask of priesthood and brotherliness, avowing open love of her. She silences him by turning against him his own teaching that she is 15 not woman but. A sword. After a short colloquy with Arth and Enya, m which Mona relates her triumphant progress among the tribes, the others go to prepare for the sacrifice which 13 to initiate the battle, leaving Mona praying alone ln the moonmy], auu Lcuuuua tumc trial. In: 15 a. Dara whose person 18 sacrea; tnen, moang them make him prisoner unhurt, she hurries on the preparations for the attack. Men and women bring torches, weapons, and materials of war. The Bards and Druids gather about the altar, where Mona, Gloom and Caradoc, to the music of a barbaric chant, perform the ceremony of blessing and distributing the swords. As they receive their weapons the priests rush out to lead the onslaught, followed by the tribesmen until the stage is left empty and dark but for Enya, who throws herself sobbing at the foot of the altar as the sound of the singing dies away in the forest. A Creative Approach to Teaching Writing
Steve Bowkett 2014-10-09 Why should children learn to write fluently? What difference will it make to them and the opportunities available to them later on in life? The ability to communicate clearly, accurately and persuasively is a vital life skill. Deficiencies in motivation and thinking skills pervade the challenge of improving children's literacy levels. Get Them Thinking Like Writers! combines practical activities to help children aged 7-11 develop their writing skills, with insights into the attitude that experienced writers apply to their craft. The activities explore different working methods - such as how authors tap into and develop their creativity and how they deal with 'writer's block' - and are supported by strategies for thinking that will develop children's literacy and the way they use language to express their opinions in all subject areas. Steve Bowkett, author, storyteller and education consultant, provides the key concepts and learning benefits of each strategy, along with a series of activities, extension ideas and useful links. Surface and Depth
Michael T. Gilmore 2003-01-16 The idea of a common American culture has been in retreat for a generation or more. Arguments emphasizing difference have discredited the grand synthetic studies that marginalized groups and perspectives at odds with the master narrative. Surface and Depth: The Quest for Legibility in American Culture is a fresh attempt to revitalize an interpretive overview. It seeks to recuperate a central tradition while simultaneously recognizing how much that tradition has occluded. The book focuses on the American zeal for knowing or making accessible. This compulsion has a long history stretching back to Puritan anti-monasticism; to the organization of the landscape into clearly delineated gridwork sections; and to the creation of a national government predicted on popular vigilance. It can be observed in the unmatched American receptivity to the motion pictures and to psychoanalysis: the first a technology of visual surfaces, the second a technique for plumbing interior depths. Popular literature, especially the Western and the detective story, has reinscribed the cult of legibility. Each genre features a plot that drives through impediments to transparent resolution. Elite literature has adopted a more contradictory stance. The landmarks of the American canon typically embark on journeys of discovery while simultaneously renouncing the possibility of full disclosure (as in Ahab's doomed pursuit of the "inscrutable" white whale). The notorious modernism of American literature, its precocious attraction to obscurity and multiple meaning, evolved as an effort to block the intrusions of a hegemonic cultural dynamic. The American passion for knowability has been prolific of casualties. Acts of making visible have always entailed the erasure and invisibility of racial minorities. American society has also routinely trespassed on customary areas of reserve. A nation intolerant of the hidden paradoxically pioneered the legal concept of privacy, but it did so in reaction to its own invasive excesses.

Erste Person Singular
Haruki Murakami 2021-01-26 »Solange Murakami leben und schreiben wird, wird er dieses Universum erweitern.« PATTI SMITH Frauen, die verschwinden, eine fiktive Bossa-Nova-Platte von Charlie Parker, ein sprechender Affe und ein Mann, der sich fragt, wie er wurde, was er ist: Die Rätsel um die Menschen, Dinge, Wesen und Momente, die uns für immer prägen, beschäftigen die Ich-Erzähler der acht Geschichten in »Erste Person Singular«. Es sind klassische Murakami-Erzähler, die uns in eine Welt aus nostalgischen Jugenderinnerungen, vergangenen Liebschaften, philosophischen Betrachtungen, Literatur, Musik und Baseball entführen. Melancholisch, bestechend intelligent und tragikomisch im allerbesten Wortsinn sind diese Geschichten, die wie beiläufig mit der Grenze zwischen Fiktion und Realität spielen und immer wieder den Verdacht nahelegen, dass Autor und Ich-Erzähler mehr als nur ein paar Gemeinsamkeiten haben.
